Utopia Gıda Tarım Ürünleri Turizm Sanayi ve Tic. Ltd. Şti. başta kurutulmuş incir olmak üzere, kurutulmuş meyve üretim sektöründe hizmet veren, Aydın merkezli bir firmadır. Farklı sektörlerde deneyim kazanmış iki kadın girişimcinin kurucu ortaklığını yaptığı firma, 1000 m2 kapalı alanda üretim yapmaktadır.

Utopia Food Agricultural Products Tourism Industry and Trade. Ltd. Sti. is a company based in Aydın, serving the dried fruit production sector, especially concentrated on dried figs. The company today produces on a 1000 m2 sized closed area and has been founded by two women entrepreneurs' partnership who have previously gained experience in different sectors.

## Hakkımızda / Hikayemiz

## About Us / Story

Aydın'ın dağ köylerinde üretici kadınların ürettiği ürünlere pazar bulmak amaçlı geliştirdikleri sosyal sorumluluk projeleri sonrasında, firmanın üretim temelleri atılmıştır. Uzun yıllardır gıda ve tarım sektöründe edindiği tecrübeleri, günümüz teknolojileriyle birleştirip, kalite prensiplerine bağlı şekilde üretim yapmaktadır.

Following some social responsibility projects that have been developed in order to find a market for the products produced by women in the mountain villages of Aydın, the company's production foundations were laid. It combines the experiences gained in the food and agriculture sector with today's technologies and makes production in accordance with the quality principles.

Her geçen gün, pazar payını ilkeleri doğrultusunda büyümeyi planlayan firma, kalite ve hijyen standartları ile daha çok tüketiciye ulaşmayı ana hedefi olarak belirlemiştir. Firmanın temel hedeflerinden birisi de kadın üreticilerin bilinçlendirilmesi ve kadın istihdamının artırılmasıdır.

Every day, the company plans to expand its market share in line with the principles; with strong emphasis on quality and hygiene standards, the main target is to reach more consumers. One of the main objectives of the company is to raise awareness of female producers and to increase women's employment.

Yıllık 2000 ton ürün işleme ve paketlenme kapasitesine sahip tesiste, kuru incirin 12 ay boyunca tüketilmesi doğrultusunda üretim periyodunu planlamaktadır.

The plant, which has an annual processing and packaging capacity of 2000 tons in a year, plans the production period according to the consumption of dried figs during 12 months. In addition to dried figs, also raisin and paradise apple (Persimmon) which have been cultivated in the region, are processed and packaged.

## Vizyon/misyon

## Vision / Mission

Utopia Gıda Tarım Ürünleri Turizm Sanayi ve Tic. Ltd. Şti. olarak, daha iyisine olan arzumuz, yenilikçi yöntemlerle, müşteri memnuniyeti odaklı hizmet anlayışını, üretimin tüm süreçlerine uygulayarak pazardaki payımızı her geçen gün güçlendirmektedir.

As Utopia Food Agricultural Products Tourism Industry and Trade. Ltd. Sti., our desire is to achieve better, innovative methods, add a customer satisfaction-oriented service approach to all processes of production and to strengthen our share on the market day by day.

Yerelden globale bakış açımız ve farklı pazar ihtiyaçlarına yenilikçi çözümler arayarak ürettiğimiz ürünler; yurt dışı pazar ağında da yer bulmamızı sağlamaktadır. Geçmiş tecrübemiz ve geleceğe olan inancımız, paydaşlarımız ile olan karşılıklı birlikteliğimizi her geçen gün artırmaktadır.

Our perspective from the local to the global point of view and the products we produce by searching for innovative solutions for different market needs; allows us to also show our presence on the foreign market network.

Doğadan gelen bu mucizeyi, en iyi koşullarda işleyerek en güzelini ortaya koyma çabamız bizleri her geçen gün; daha güvenli bir gelecek için kendimizi geliştirmeye, birlikte üretmeye ve kazanımlarımızı toplum gelişimi için sürdürülebilir kılmaya devam etmektedir.

Our previous experience and our belief in the future increase our mutual cooperation with our stakeholders. Through our efforts to process the miracles coming from nature and revealing their beauty by working under the best conditions makes us continue to develop, to produce together for a safer future and to make our achievements sustainable for the community.

# Kuru İncir Üretim Aşamaları

## Dried Figs Production Process

### Fümiğasyon

Üreticiden işletmeye doğrudan sevk edilen kuru incirler ekspertiz sonrası fümiğasyon işlemine alınır. Fümiğasyon süresi ürün niteliğine ve miktarına göre değişkenlik göstermektedir. Fümiğasyon işlemi sonrasında, ürün beraberinde incir bahçelerinden gelebilecek her türlü bulaşıklık engellenmiş olur.

### Aflatoksin ve Küf Kontrolü

Kuru incirler, ilk kontrol ve hassas kontrol olmak üzere en az iki defa UV ışık altında aflatoksin kontrolünden geçer. Aflatoksin kontrolü ile aynı zamanda küflü incirler de ayıklanmaktadır.

### Kalibre (Boylama)

Fümiğasyon işlemi sonrası ürünler kalibre edilerek boylarına göre sınıflandırılır.

### Fumigation

Dried figs which are directly sent from the cultivator to factory, are fumigated after the expertise. Fumigation duration changes to product's quality and quantity. Every kind of contamination which can be brought with dried figs from the area is prevented through fumigation.

### Aflatoxin and Mould Control

On the brink of first control and precision control, dried figs pass through aflatoxin control under UV ray at least two times. Mouldy dried figs are removed at the same time aflatoxin control.

### Calibrate

After fumigation, products are classified to the sizes through calibration.

#### Yıkama

Tüm ürünler yıkanarak toz ve yabancı maddelerden arındırılır ve işlemeye hazır hale getirilir.

#### Dinlendirme / Kurutma

Yıkanmış ürünler öncelikle bir süre dinlendirmeye alınır. Gerekli görülürse kurutma fırınından geçirilir.

#### Paketleme

Ürünler, müşteri tercihine göre farklı tip, gramaj ve ambalajlarda paketlenir.

#### Washing

All products are cleared of foreign matters through washing and made ready for processing.

#### Conditioning / Drying

Washed products are conditioned for a while firstly. If it is necessary, products are passed through drying oven.

#### Packaging

Products are packed up different types, basis weights and packaging according to customer's preferences.
